21 CFR, Part 182.5890
21 CFR, Part 182.3890
21 CFR, Part 184.1890

Product properties

Appearance

COPHEROL® F 1300 is a transparent, brownish-red, viscous oil with characteristic odour.

Example of use

COPHEROL® F 1300 is an Alpha-tocopherol of natural origin, which contains low quantities of other vegetable oil constituents due to the raw materials. COPHEROL® F 1300 is suitable as an active substance in skin care products and hair aftertreatment preparations. Since the free tocopherol is sensitive to oxygen and light, the product should be protected against light and packaged in opaque containers impermeable to oxygen.
