## Officially listed in / Quality conforms to

US: FCC IV, GRAS (21 CFR, Part 182.3890), NF 18, EG: E 306,  
FAO/WHO

## Product properties

### Appearance

COVI-OX® T 50 is a transparent, brownish-red, viscous oil with characteristic odour.

### Example of use

The product is a tocopherol mixture of natural origin which contains low quantities of other vegetable oil constituents due to the raw materials or natural antioxidants. COVI-OX® T 50 is suitable as a natural antioxidant or as an active substance in skin care products and hair aftertreatment preparations. Since the free tocopherol is sensitive to oxygen and light, the product should be protected against light and packaged in opaque containers impermeable to oxygen.
