

## Labeling information

### INCI name(s)

Glycol Stearate

## Registrations

Ingredient	CASR-No.	EINECS/ELINCS-No.
	91031-31-1*	2929321

\*With the change of the legislation on chemicals from 10/30/1994, the product falls under the regulation "no longer polymer"

## Officially listed in / Quality conforms to

JCIC: Ethylene Glycol Monostearate  
(Ingredient Code 102269)

## Product properties

### Appearance

CUTINA® EGMS is supplied in the form of white to slightly yellowish powder.

### Example of use

It is mainly used as an opacifier and pearlisser for the preparation of shampoos and foam bath products. Furthermore, CUTINA® EGMS can be used as a consistency giving factor for cosmetic and pharmaceutical creams and emulsions as well as for water-free preparations.

## Characteristic values

The specifications stated in the paragraphs 'Quality control data' and 'Additional product descriptive data' finally and conclusively describe the properties of the Product.

### Quality control data

(Data which is used for quality release and is certified for each batch.)

Appearance	conforms to standard	
Odour	conforms to standard	
Acid value	max. 6	DGF C-V 2
Free glycol	max. 3 %	QC 1242.0
Saponification value	180 - 195	DGF C-V 3
Rise melting point	56 - 59° C	DGF C-IV 3a

### Additional product descriptive data

(Data which is proven statistically but not determined regularly.)

Mono ester content	25 - 35 %
Hydroxyl value	60 - 110

## Storage and transportation

In original sealed containers protected from moisture and at temperatures below 30°C the product can be stored for at least one year.
