

Labeling information

INCI name(s)

Propylene Glycol (and) 5-Bromo-5-Nitro- 1,3-Dioxane

Registrations

Ingredient	CASR-No.	EINECS/ELINCS-No.
	57-55-6	2003380
	30007-47-7	2500017

Officially listed in / Quality conforms to

Product properties

Appearance

BRONIDOX® L is an almost colorless, transparent liquid.

Example of use

The product is suitable for the preservation of surfactant preparations which are rinsed off after application and do not contain secondary amines. BRONIDOX®L is temperature-stable up to 40°C and not subject to changes when applied in surfactant preparations in the pH range of 5 to 8. In accordance with the EU Cosmetics Guideline the permissible maximum concentration is 0.1% active substance (only in rinse-off agents. Avoid nitrosoamine formation).

Characteristic values

The specifications stated in the paragraphs 'Quality control data' and 'Additional product descriptive data' finally and conclusively describe the properties of the Product.

Quality control data

(Data which is used for quality release and is certified for each batch.)

Appearance	conforms to standard	
Odour	conforms to standard	
Active matter	9.5 - 10.5 %	Q-C 2003.0
Density (20 °C)	1.080 - 1.090	DIN 51757 V4
Refractive index (20 °C)	1.435 - 1.437	DGF-C-IV-5

Additional product descriptive data

(Data which is proven statistically but not determined regularly.)

Cloudpoint	<15 °C
Water	max. 0.5 %

Storage and transportation

In original sealed containers and at temperatures between 20-30°C the product can be stored for at least one year. Possible cold temperature crystallisation is to be observed, since it may reduce the activity. Crystal separations at the bottom of the containers during storage in a cool environment can be reversed by heating up to a maximum of + 40 °C while stirring. BRONIDOX® L is corrosive on metals; thus

application in aerosol products or protected metal containers cannot be recommended.
