Product properties

Appearance

CETIOL® OE is a clear, colourless, odourless oil of low polarity with a low molecular weight.

Spreading value approx. 1600 mm² /10 min.

Example of use

Fast spreading emollient with a dry skin feel for all cosmetic applications. Due to its chemical structure it is hydrolysis stable and therefore beneficially suitable for all formulations where a wide pH range is needed e.g. deo/antiperspirant & hair remover formulations. Beside this it supports the cleansing efficacy of emulsion based face care cleanser in a positive way.
